

# The music education

**Can change  
the world**

# Introduction

Meu Kantinho Centro de Cultura is a non-profit social work, active for 24 years, with the main objective of teaching music for free to anyone who wants to learn.

# Localization

We are located in the Circular Penha neighborhood on the outskirts of the city of Rio de Janeiro.

A place with many basic needs, many social ills and the need for social work to rescue the citizenship and dignity of the population, especially children and young people.

# our students

They are underprivileged children and young people who need an educational direction.

**Musical education**

**planting workshop**

**Professional Training**

We offer several learning workshops

Our mission is to be a transformative source of positive change in society and the world.

Take children and young people out of occlusion and offer an opportunity for education and a better future.

# Our story

In 24 years of work, we have trained more than 1,300 students and many of them are professional musicians.

We are currently experiencing a drama, we had heavy rains in the city of Rio de Janeiro that flooded the entire school, we lost a lot of equipment and instruments and without help from the government or private company, it is very difficult to maintain social work in our country.

# OUR NEEDS

- INSTRUMENTS
- EQUIPMENT
- FOOD FOR STUDENTS
- COST ASSISTANCE FOR STUDENTS
- UNIFORMS
- STUDY MATERIAL
- MAINTENANCE AT THE SCHOOL
- A LOT MORE

We want to change the world, so  
we're asking everyone everywhere!

"As long as there is a child's smile, Meu  
Kantinho will survive" (Cloves do Violão)
